ROSCOE S. BALDWIN

Fern Specialist

Rex Begonias

550 Atlanta Street Pasadena, Calif.

Telephone Sterling 2371

◆ **TRADE PRICE LIST** ◆

References required from unknown parties.

Plants packed out of pots free. In pots, packing at cost.

We will ship by American Railway Express when possible, unless otherwise specified.

Ten per cent discount for cash and carry.

We have been growing Ferns for over thirty years and have made it a point to always have the best and cleanest stock that time and money can produce.

For thrip, red spider, scale, etc., we recommend a solution of Nicotine (40 per cent,) one teaspoon to each gallon of water, combined with one teaspoon of lime sulphur, applied during the hatching season about once each month.

We will be glad to confer with you about any other fern pests that may bother you.

REX BEGONIAS

We have perhaps the largest commercial assortment on the Pacific Coast and are always growing new seedlings and collecting new types.

We are not listing the names on account of lack of space and also because of the great discrepancy in nomenclature.

Most of the Rex do well in our climate if protected from frost and the burning sun, either planted out or as pot plants.

Rex Begonias, 2½ inch.....	\$15.00 and up per 100
Rex Begonias, 4 inch.....	\$35.00 and up per 100
Rare Varieties, 2½ inch.....	\$35.00 and up per 100

Begonias work in well with ferns, either in pots or outside.
